INSTALLATION INSTRUCTIONS

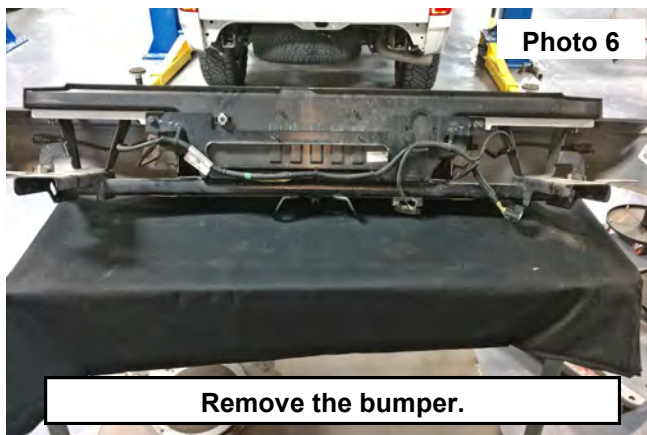

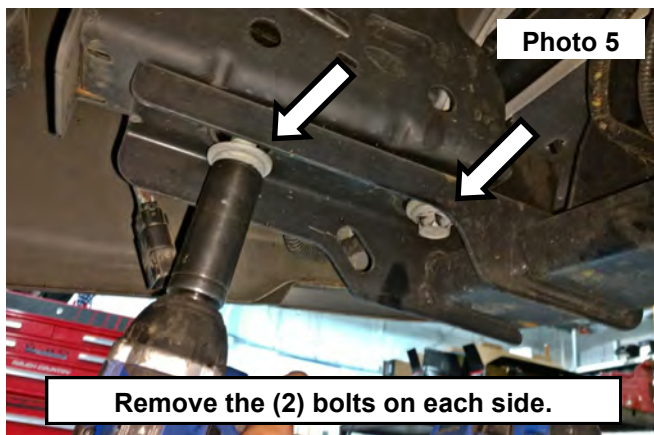

1. Remove the license plate screws. Then remove the license plate and set aside for reuse. **See Photo 1.**
2. Disconnect the bumper harness from the inner left side frame rail. **See Photo 2.**

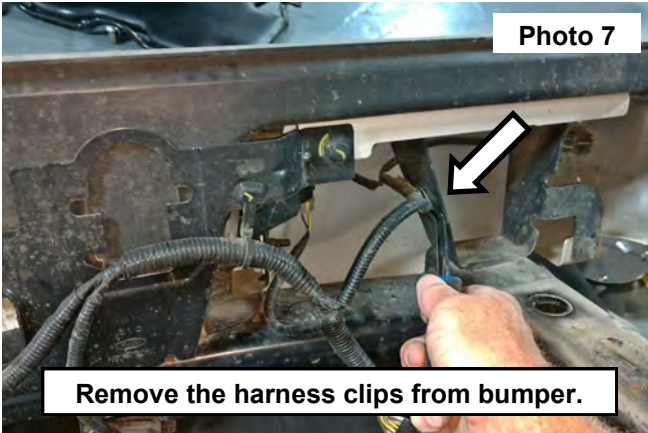

3. Remove the trailer light plug from the hitch mount or unplug 7 pin harness from trailer plug. **See Photo 3.**
4. Support the bumper. Do not get under the bumper with out support. Then locate the (2) bolts on each side of the hitch frame mount. **See Photo 4.**

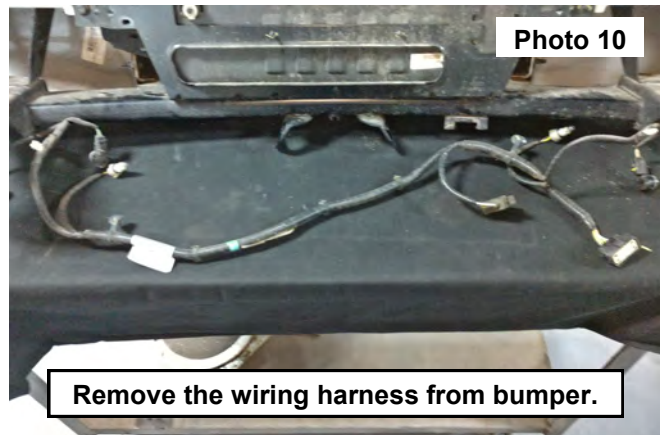

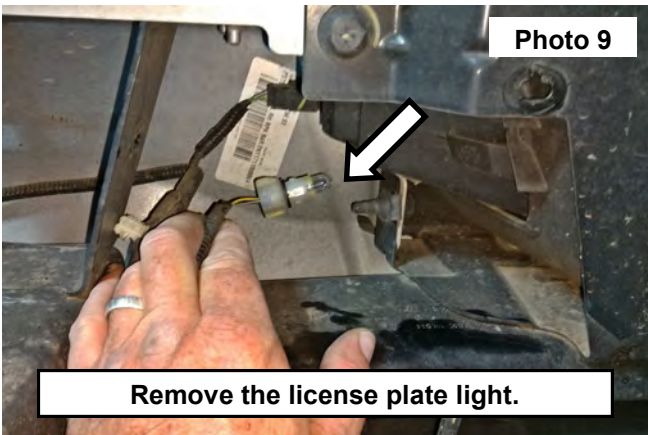

5. Remove the (2) bolts on each side of the frame mount. Then remove the bumper from the vehicle. **See Photos 5 and 6.**

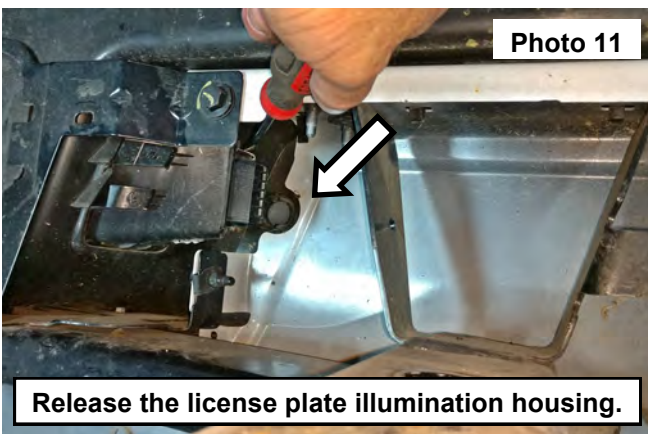

- Using an auto clip removal tool to remove the harness clips from the inner structure of the bumper. **See Photo 7.**
- Remove the (4) sensors from the bumper mounts. **See Photo 8.**

- Remove the (2) license plate light from the license plate illumination housings on each side of the bumper. **See Photo 9.**
- Remove the wiring harness from the bumper. Retain for later use. **See Photo 10.**

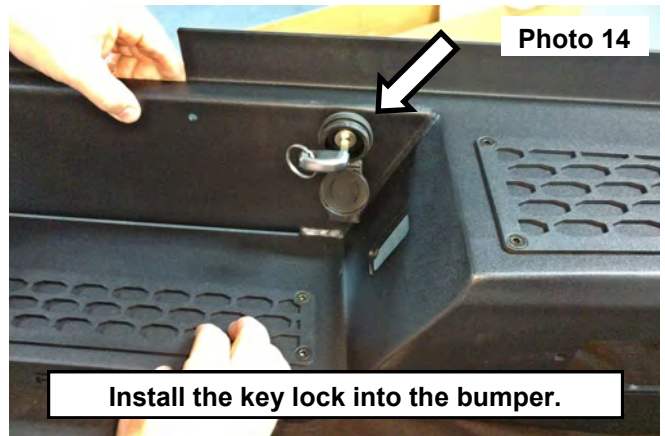

- Using a pry tool release the clip on the top of the license plate illumination housing. Remove both lights on each side of the bumper. **See Photo 11.**
- If equipped with a remote, release the key from the remote. **See Photo 12.**

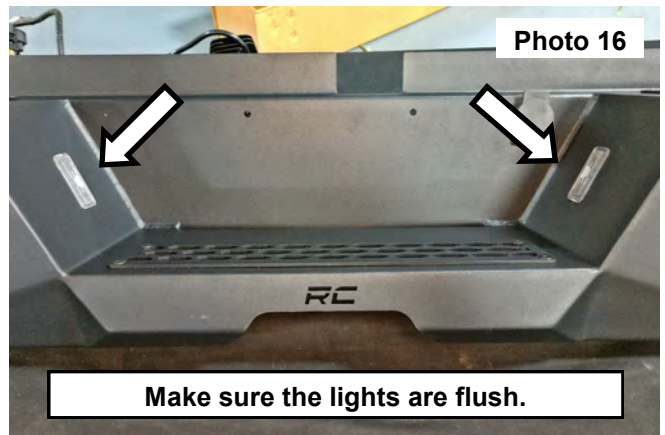

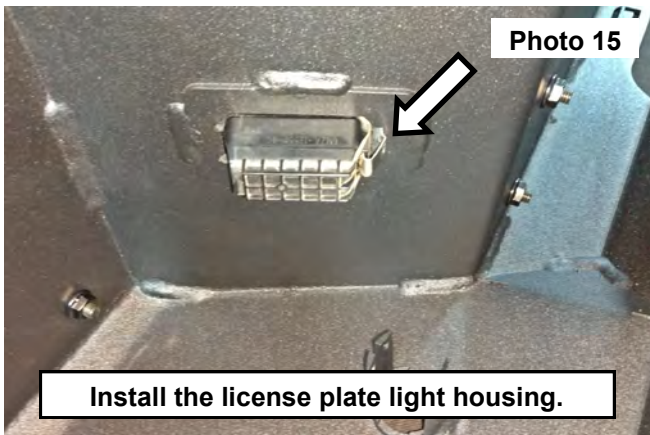

12. Use the key to remove the key lock from the bumper. **See Photo 13.**

13. Install the key lock into the new bumper. **See Photo 14.**

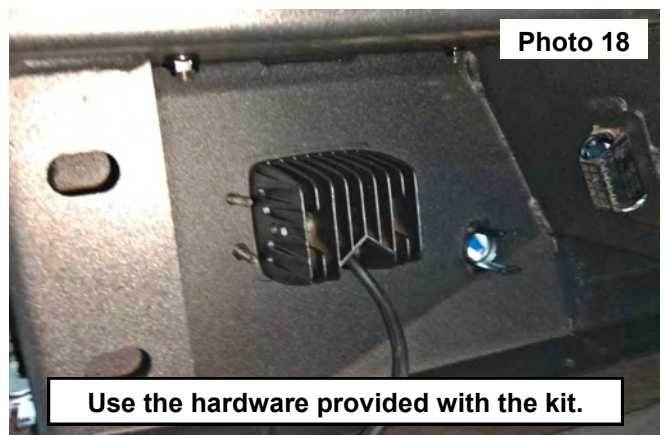

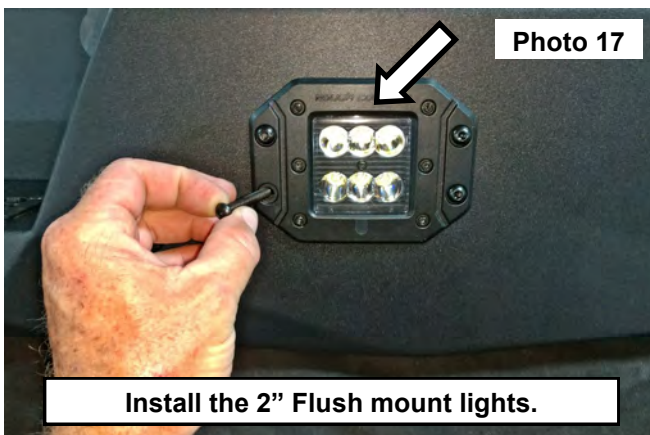

14. Install the license plate illumination housing into each side of the bumper. Make sure the clip at the top has locked into position. **See Photo 15.**

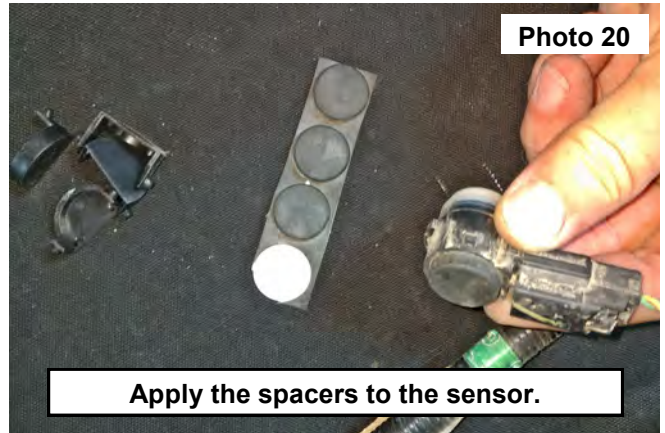

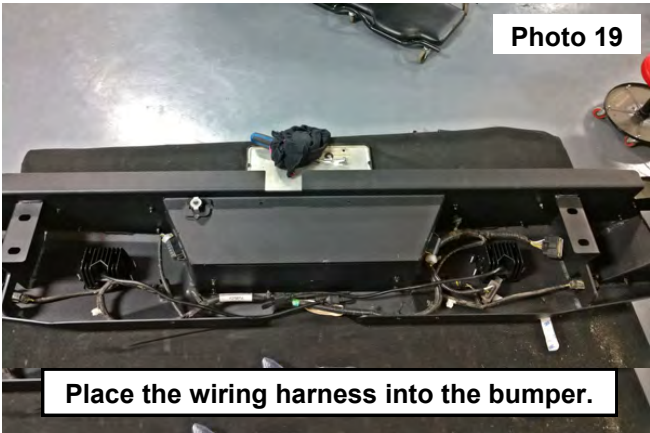

15. Make sure both lights are fit flush into the bumper. **See Photo 16.**

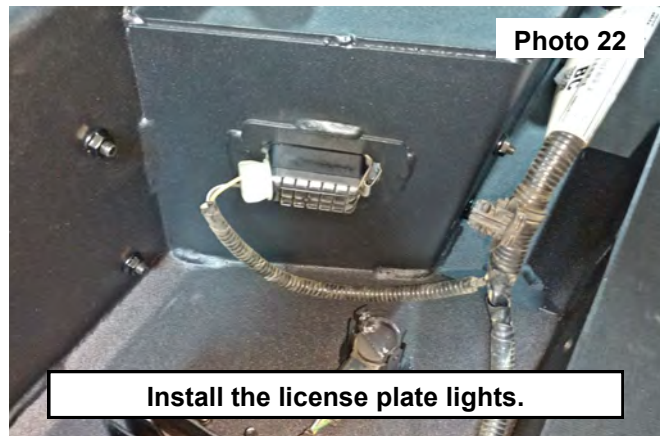

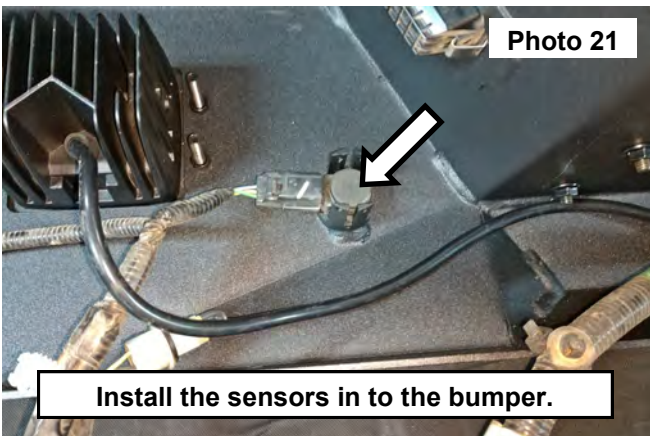

16. Install the 2" flush mount lights on each side of the bumper using the corresponding instructions and hardware provided in the flush light kit. **See Photos 17 and 18.**

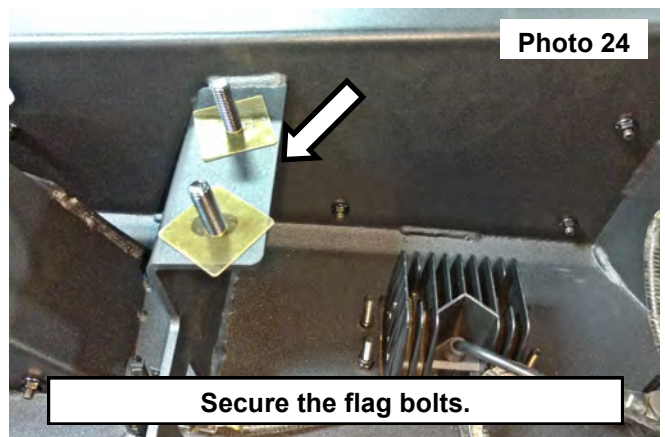

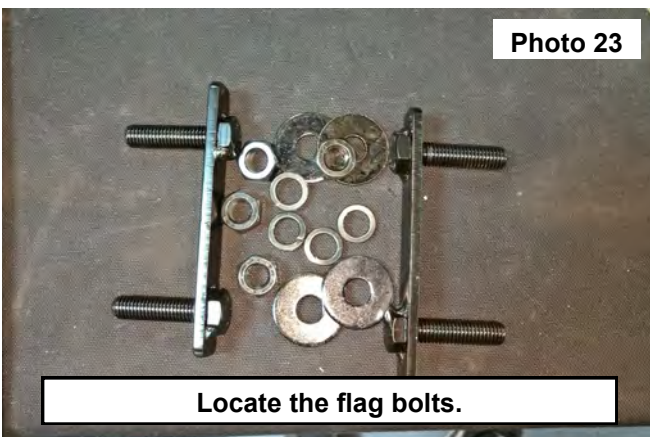

17. Place the bumpers wiring harness into place on the inside of the bumper. **See Photo 19.**
18. If not equipped with back up sensors, install the (4) supplied block off plates.
19. Clean the top of the sensor using alcohol. Then apply the adhesive side of the spacers to the top of the sensors. **See Photo 20.**

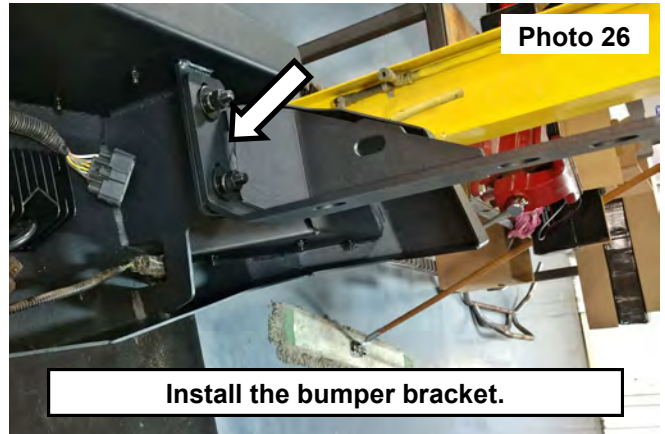

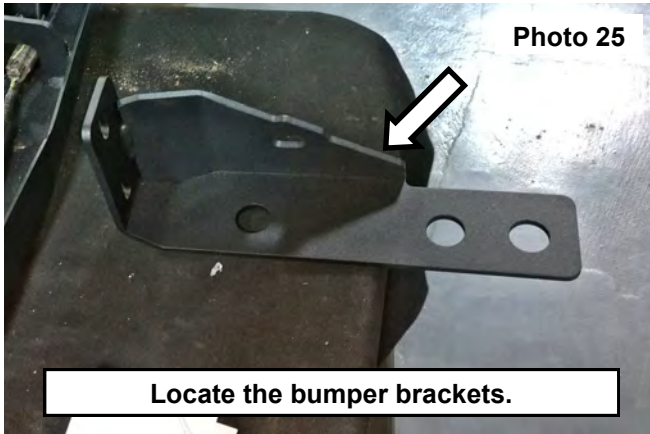

20. Install the sensors in to the bumper. Then lock the sensor into the mount using the sensor retaining clip or bolts in the base of the sensor mount. **See Photo 21.**
21. Install the license plate lights into the license plate illumination housing on each side of the bumper. **See Photo 22.**

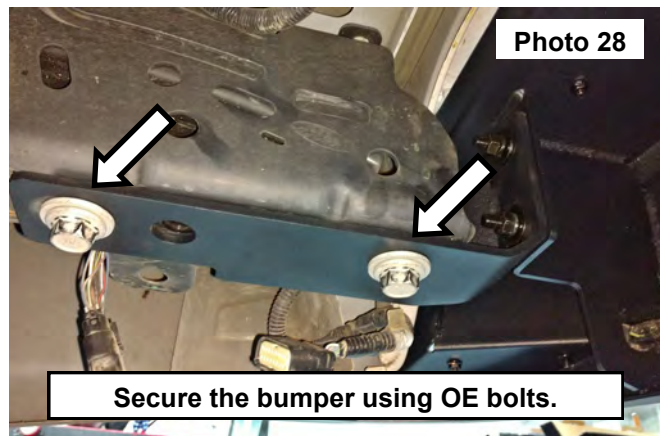

22. Locate the (2) Flag bolts. **See Photo 23.**
23. Install the flag bolts into the bumper mounts. Then secure the flag bolts using (2) retainers. **See Photo 24.**

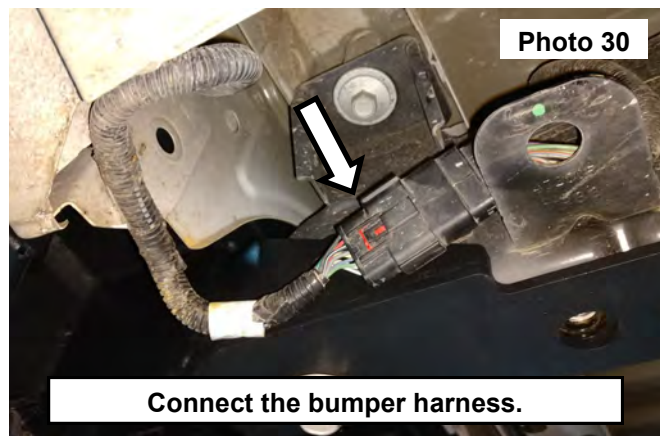

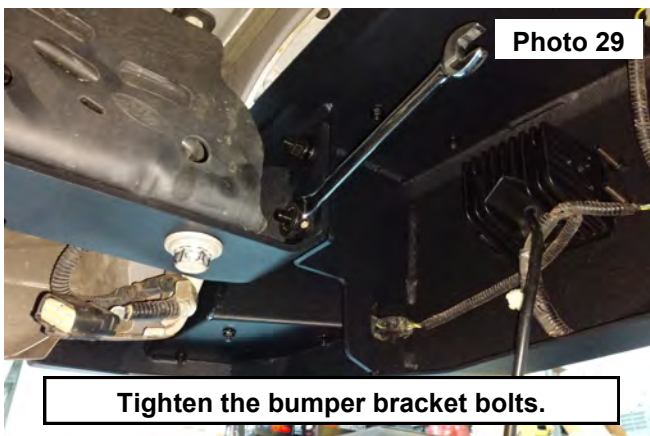

24. Locate the bumper brackets. Left side (Passenger) shown. **See Photo 25.**
25. Install the bumper brackets onto the bumper. Then secure using (2) 10mm Nylock Nut, (2) 10mm lock washers and (2) 10mm large washers. **See Photo 26.** Do not tighten hardware at this time.
26. Install the right side bumper brackets using the supplied hardware.

27. Install the wiring harness for the 2" flush mount LED lights to the power supply on the vehicle using the corresponding instruction sheet.
28. Support the bumper and place it onto the vehicle. **See Photo 27.**
29. Place the brackets to the lower side of the frame. Secure the bumper using the retained OE hardware. **See Photo 28.**

30. Adjust the bumper to the desired height and tighten the bracket to bumper bolts using a 17mm wrench. **See Photo 29.**
31. Connect the bumper wiring harness. Then connect the 2" flush mount LED lights to the installed harness. **See Photo 30.**

32. Install the trailer plug bracket (7 pin plug shown) using (2) 6mm x 20mm button head bolt (2) 6mm flat washers and (2) 6mm nylock nuts. **See Photos 31 and 32.** Tighten using a 4mm allen wrench and a 10mm socket. If equipped with 4 pin it will be installed in the stock location on the hitch.
