

RAPID TIRE DEFLATOR TOOL

Thank you for choosing Rough Country for all your off road needs.

Please read instructions before beginning installation. Check the kit against the parts list.
Be sure you are familiar with the function and process of tool

PRODUCT USE INFORMATION

Please read instructions before using tool. Do not run under inflated tires on the roadway and always check to ensure there is adequate pressure in the tire to secure the bead to the rim. Failure to follow tire inflation specifications could result in tire failure or premature wear.

If questions exist we will be happy to answer any questions concerning the function and correct use of this product.

Kit Contents:

99016-Rapid Tire Pressure Release Tool & carrying case

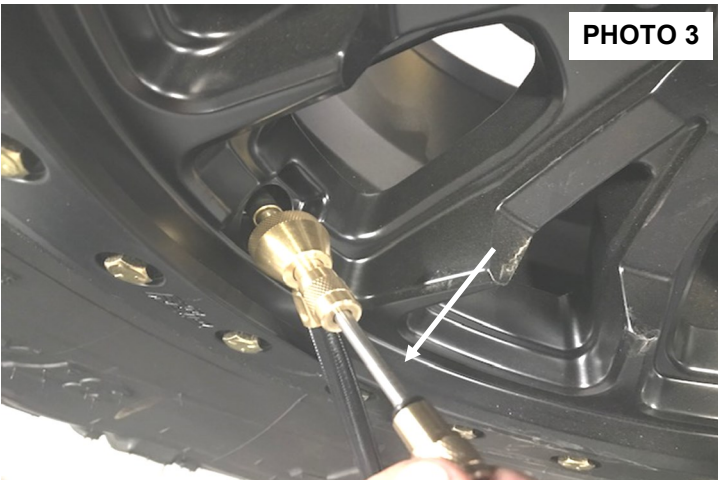

INSTALLATION INSTRUCTIONS

1. Thread the tool on the valve stem and hand tighten only. **See Photo 1.**
2. Push the plunger down. The plunger should engage the valve core. Remove the valve core by twisting the plunger. **See Photo 2.**

3. Make sure the sliding valve on the tool is toward the valve stem and remove the valve core by pulling the plunger. **See Photo 3.**
4. Make sure the valve gauge is visible and reading tire pressure.
5. Slide the sliding valve outward as shown in **Photo 4** and the air will begin rapidly escaping. Monitor the air pressure and slide the valve toward the valve stem to stop the air from escaping the valve stem.

6. Push the plunger back in to the valve stem and tighten by turning the plunger. Do not over tighten.
7. Remove the tool from the valve stem and replace the valve stem cap.
